Weaver

What I like
Creation, fabrics, materials,
and colours

The tasks and working conditions

The profession of a weaver involves:

- mastering various weaving techniques,
- creating patterns,
- making fabrics, garments, or accessories,
- selecting fibres, wool, and colours,
- executing different weaving techniques.

Required qualities

To practise this profession:

- You must be creative, patient, and self-reliant.
- You need to demonstrate dexterity.
- You must be able to manage inventory as well as plan and organise your work.

Training

In France:

There is no official training programme for weaving.

- Some weaving workshops are accredited by the state to train future weavers.
